RE: TB Tine Test Requirement

The State Department of Health requires all employees have a skin test for tuberculosis. The School District must be able to verify that all employees have had a skin test or evaluation for tuberculosis.

If you have not had a TB test within the past year, you will have to get one. If you have had one, please have the form below signed by your doctor/clinic and please include your own signature.

Thank you for your cooperation in this matter.

I do hereby certify that _____ has been checked for tuberculosis and the results were negative.
